

CATHIE

Expertise, Seabed and Below

We're a global offshore geoscience and geotechnical engineering consultancy providing geotechnical, geophysical, geospatial and engineering consultancy services to a wide range of offshore and near shore industries, including wind, oil and gas, marine energy, ports; and subsea cables. We work on projects at all stages, from feasibility studies through to decommissioning, offering innovative, cost-effective solutions to clients all over the world.

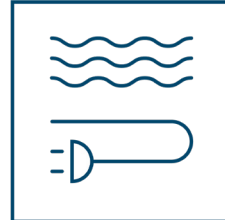

We are the trusted partner of the world's largest energy organisations and their Tier-1 contractors, offering the full integrated range of 'seabed and below' solutions, delivered by our team of industry experts. From an ubiquitous presence in Europe, we now work on several projects in key developing markets around the world. We're now the largest consultancy of our type with the drive to innovate and deliver R&D targeted at our clients' strategic problems..
